

Live webinar

8th NOVEMBER 2023, WED
1:30 pm - 3:10 pm (GMT+9)

IC-GU12 Joint Lecture Series 2023

Recent Advances in Postharvest Biology and Technology for Achieving the Sustainable Development Goals

Dr. Chairat Techavuthiporn

Associate Professor, King Mongkut's Institute of Technology Ladkrabang, THAILAND

Responses related to postharvest changes in fruit and vegetables after short-term anoxia treatment

Dr. Pongphen Jitareerat

Associate Professor, King Mongkut's University of Technology Thonburi, THAILAND

Silver nanoparticles applications for preserving quality of mangosteen fruit

Dr. Khandra Fahmy

Associate Professor, Andalas University, INDONESIA

Physicochemical characteristics and LC-HRMS metabolite profiling of Tongar avocado fruit with different maturity stages

Dr. Ma Gang

Assistant Professor, Shizuoka University, JAPAN

Elucidating the molecular mechanism of nobiletin accumulation in citrus fruit

Free of Charge
