Q:Were you able to interact with peers and faculty/teaching staffs?

Q:How was your overall impression of this 3-day seminar?

#### 講義、研究発表会について

- ・シラバスには研究<u>目的</u>をプレゼンしなさいと書いてあったが、みなさん研究<u>結果</u>の発表だったので、 説明と違うと感じた。
- The special lecture was interesting and I gained a lot of important information how to conduct the PhD life. I also can communicate the themes from across different research and it was nice. Thanks.
- I think its better to sent final presentation one day or three day before the day. So student just focus on student's presentation and for time management too.

#### 同級生、先生との交流について

- ・インドネシアについて色々知ることができました。とても良い機会でした。
- So far so good. But the Q&A session during presentation was limited. So that it would be nice if there is a session that the participant can discuss more with all the participants.
- ・自由時間が少ないと交流は難しいと感じました。

#### その他

- ・もう少し英語の勉強をしようと思いました。(発表)
- · Sertisfied !!! Best !!
- Thank you very much.
